

2022 Advanced Medical & Public Health Internship

In-Person at Georgetown University from July 24th to July 30th and July 31st to August 6th, 2022
Virtual Program from August 1st to August 12th, 2022

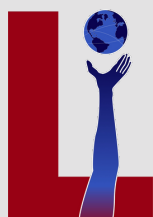

Through a partnership with the International Brain Bee, Leadership Initiatives provides Brain Bee participants the opportunity to attend their internships in the areas of neuroscience and medicine which are hosted online and in-person at Georgetown University. The top three winners of the 2022 IBB World Championship will be awarded full scholarships by Leadership Initiatives for a 2023 online internship. Leadership Initiatives also provides partial scholarships to any local and national Brain Bee participants worldwide that significantly reduce the tuition for their 2022 Online or In-Person Advanced Medical Neuroscience Internship - see details on next pages. Participants will be featured on the Leadership Initiatives website.

2022 Program Information

Grades: Rising Freshman to Graduating Seniors

Program Dates: July 24th - July 30th, 2022 and July 31st - August 6th, 2022

Location: Georgetown University, Washington, DC

Program Price: \$3,400 USD (Financial Aid Available)

About the Program

The Advanced Medical & Public Health Internship is a first-of-its-kind accelerated internship that pairs motivated high school students with medical pioneers from across the globe to train the next generation of doctors.

Throughout the program, interns will dive into pressing medical issues and work in small groups to develop extensive public health campaigns. Interns will advocate for their campaigns in front of a team of medical experts with top presentations being implemented in the fall of 2022.

On the final day, interns will use specialized Microsoft communications software in conjunction with Facebook's VR technology to diagnose a patient in sub-Saharan Africa with a doctor in real-time and recommend treatment and future prevention methods. Leadership Initiatives will cover the cost of all treatments, allowing students to have a direct impact on their patient.

Top Features

Diagnose a Patient

Students will intern for the Nagari Hospital & Maternity Ward, learning directly from leading doctors in both the United States and the developing world while meeting directly with patients to identify their illness and recommend treatments.

Public Health Campaign

Interns work with development and public health experts to create an educational public health campaign. This campaign will be published and widely distributed in underserved communities in the developing world to increase awareness.

Howard University

Through our exclusive partnership with the Howard University Simulation Center, students will have the rare opportunity to perform an upper endoscopy, an abdominal ultrasound, and learn how to perform phlebotomy using state-of-the-art-simulation units.

Leadership Initiatives

Advanced Medical & Public Health Internship

About Leadership Initiatives

Leadership Initiatives has been committed to community-led projects since the organization's founding over 15 years ago. We began working directly with communities in 2003 at a grassroots level, where we believe development has the greatest impact. It is in these communities where women, men, and youth can discover their voice, assert their rights, and mobilize action to achieve their aspirations.

Leadership Initiatives is a registered 501(c)(3) nonprofit that has been fully vetted by GlobalGiving and has received its "Superstar" rating. Leadership Initiatives has also received "Goldstar" status from Guidestar, "Top Nonprofit" status from Great Nonprofits, and was awarded Georgetown University's coveted Outstanding Community Partner award from their Center For Social Justice.
